THIS IS UNEVALUATED INFORMATION

25X1

The Bydgoszcz canal port is located in the center of the city, on Fordonska Street. It is called Lloyd Bydgoski. The port is divided into two sections separated by an island; two bridges connect it with the mainland. One part of the installation contains shipyards and the other a transloading area. The total number of workers is about 500. Iron ore, coal and building materials make up the majority of materials transloaded at the port. The installation is protected only by Industrial Guards.

Approved For Release 2007/03/02 : CIA-RDP82-00457R014000020003-5

Attachment I
